

The Short And Tall Of It

Complete the 'Main' task if you can. **Try** the 'More' task. If you want, then **have a go** at the 'Challenge' task.

You will need something to measure with.

You might need someone to help you do the measuring.

Main: **Choose** one room to do this work in.

Measure the shortest object you can find.

Write down that measurement.

Measure the tallest object you can find.

Write down that measurement.

More: **Find** another object that you think is roughly the middle of the other two sizes.

Measure that 'middle' object.

Write down that measurement. (Did you make a good guess?)

Challenge: **Write down** the names of the objects, from shortest to tallest, and include yourself in the list. Where are you in the list of sizes?

All done! **Send it in** and tell yourself well done! 😊
