

Away match **maths**

Each ground has a different capacity for away fans who should be separated or 'segregated'. Study the away capacities below and answer the following questions.

Barnet	787	Mansfield Town	1,081
Bolton Wanderers	5,000	Millwall	4,382
Cardiff City	1,800	Norwich City	2,300
Everton	2,700	Scunthorpe United	1,643
Hartlepool United	741	Stoke City	4,964
Leicester City	2,000	Swansea City	1,200

- Using the above table, which football club has the largest capacity for away fans?
- Which football club has the lowest capacity for away fans?
- What is the difference between the largest away capacity and the smallest away capacity?
- If Arsenal had two away games against Bolton Wanderers and Leicester City, how many away tickets would they have to sell?
- If Sheffield Wednesday play two away games against Swansea City & Everton, how many away tickets would they have to sell?
- If Manchester United had three away games to play against Cardiff City, Norwich City & Scunthorpe Utd, how many away tickets would they have to sell?
