

Financial affairs

Football clubs are now run as businesses, and like any business, they have to tell people how much money they make. This is known as 'publishing their accounts'.

At the end of one financial year, these European football clubs received the following incomes - they're impressive amounts of money!

Football Club	Income (million)	Position
Borussia Dortmund	£42.2	
Liverpool	£39.2	
Juventus	£53.2	
Manchester United	£87.9	
Bayern Munich	£51.6	
Barcelona	£58.9	
Newcastle United	£41.1	
A.C. Milan	£47.5	
Internazionale Milan	£39.1	
Real Madrid	£55.7	

Look at the middle column and rank the football clubs in order depending on their income. The club with the highest income will be number one and the club with the lowest income will be number ten.
