# Sustainability Policy

Written by: SHE Manager  
CLT Sponsor: Director of Estates & IT  
Consulted with: Sustainability Group  
Next Review Date: October 2023  
Version: October 2022

## 1 Purpose

Exeter College is committed to embedding the principles of sustainable living and development across the whole scope of its activities and acknowledges that:

- 1.1 Human activities put a strain on the environment with potentially devastating effects worldwide on economies, societies and the environment
- 1.2 Economic growth and development of our communities is a necessity for survival, but we have to reconcile our needs with those of the environment to make this happen
- 1.3 Sustainable development can have a positive impact on local economies, communities and the environment
- 1.4 As a provider of post-16 education, Exeter College has a significant role to play in incorporating sustainable development into our operations and the lives of the students, individuals, communities and business that we serve

## 2 Definitions

- 2.1 **Sustainability** - meeting the needs of the present without compromising the ability of the future generations to meet their own needs
- 2.2 **WEEE** - Waste Electrical and Electronic Equipment
- 2.3 **BREEAM** - Building Research Establishment Environmental Assessment Method
- 2.4 **EAUC** - Environmental Association for Universities and Colleges

## 3 Policy

Exeter College is committed to Exeter City Council's plans to make Exeter carbon neutral by 2030, adopting a coordinated approach and action at local, regional and national levels to address the challenge of carbon emissions and energy use in cities. To this aim, Exeter College will:

- 3.1.1 Achieve measurable reductions to its carbon footprint
- 3.1.2 Adopt, as far as possible, recognised good practice across all its operations
- 3.1.3 Comply with all applicable legal requirements
- 3.1.4 Identify and set Sustainability targets measured against appropriate benchmarks, documented in a Sustainable Development Action Plan
- 3.1.5 Encourage sustainable travel by staff, students and partners
- 3.1.6 Promote the conservation of material resources to reduce environmental impact

- 3.1.7 Include sustainability and environmental impact as criteria when assessing potential external contractors
- 3.1.8 Implement an effective waste management procedure that will eliminate the amount of waste sent to landfill, reduce waste used as refuse derived fuel (RDF) and encourage reusing and recycling
- 3.1.9 Improve energy efficiency where possible and reduce the energy consumption of College equipment
- 3.1.10 Endeavour to use renewable energy supplies
- 3.1.11 Ensure the removal of redundant electrical equipment known as WEEE in line with the regulation
- 3.2 Follow sustainable construction principles in all new building developments and refurbishments of existing buildings
- 3.2.1 Obtain BREEAM certification following the assessment of new build or refurbished College buildings falling within scope, focused on the categories:
- Energy
  - Land use and ecology
  - Water
  - Health and wellbeing
  - Pollution
  - Transport
  - Materials
  - Waste
  - Management
- 3.2.2 Communicate the Sustainability Policy to all students and staff
- 3.2.3 Raise awareness about Sustainability with students, staff, visitors and other stakeholders
- 3.2.4 Ensure that information on the College's progress in Sustainability is made available to learners, staff and other stakeholders
- 3.2.5 Enable the College's Sustainability Group meet termly and actively promote, monitor and implement the Policy

## 4 Implementation

Exeter College aims to be regarded as a leader of the sustainability agenda in Further Education across Devon and the South West.

Through its focus on sustainability, Exeter College will:

- 4.1 Arrange for the reuse or recycling of College waste, including paper, computer supplies and redundant equipment

- 4.2 Purchase electricity from a supplier committed to renewable energy and aim, so far as is reasonably practicable, to maximise the proportion of renewable energy sources utilised by the College
- 4.3 Provide all students with opportunities to develop their awareness of sustainability issues through sustainability related curriculum, tutoring and enrichment activities
- 4.4 Minimise the use of paper and other College office consumables, for example by printing double-sided where necessary and/or working from electronic versions
- 4.5 Purchase from local, or near local, suppliers wherever possible
- 4.6 Purchase energy efficient equipment
- 4.7 Use only an approved contractor for the removal of redundant electrical equipment known as WEEE and ensuring no redundant electrical equipment, including mobile phones, is disposed of in general waste
- 4.8 Follow sustainable construction principles in all new building developments and refurbishments of existing buildings, for example including waste travel reduction measures into contracts, reducing delivery mileage
- 4.9 Raise awareness about Sustainability with students, staff, visitors and others through the Sustainability pages on the Staff/Student Hubs and noticeboards
- 4.10 Make information on the College's progress in Sustainability available to learners and staff by providing access to relevant updates and the Sustainability Policy via the Staff/Student Hubs and the College website
- 4.11 Work with external partners and the community, for example undertake voluntary work with the local community and/or environmental organisations and make positive efforts to seek to offset carbon emissions from the College's activities
- 4.12 Include the full costs of more sustainable forms of transport in financial proposals, rather than the cheapest initial cost option when replacing College vehicles, for example consider electric/Hybrid vehicles and continued/increased contract with Co Cars
- 4.13 Continuation of involvement with the EAUC after the College signed the Environmental Association for Universities and College (EAUC) Further Education Colleges Sustainable Development Declaration in Nov 2010
- 4.14 Promote the use of reusable or recyclable products throughout College
