HOW TO APPLY

If you haven't studied with us before and are applying for full time study, you should apply via UCAS. The main UCAS deadline will be in January, however, students can continue applying after this date.

When completing a UCAS application you will need a course code. These can be found on our college websites and on the UCAS website. You will also need our Institution Code, this is E81.

Scan the QR code to apply via UCAS.

WHY STUDY WITH US?

- Small class sizes and focused support
- Great locations in Exeter and Barnstaple
- Industry standard facilities
- Qualifications which are flexible
- Group graduation at Exeter Cathedral

HIGHER EDUCATION AT EXETER COLLEGE

BUSINESS

I've benefited so much from smaller classes and the one-on-one learning. My grades improved, along with my enjoyment and my love for the subject.

Ethan

Business Management

BUSINESS

Gain the skills and knowledge employers value while exploring every aspect of business and tailor your degree with specialist pathways.

YOU CAN STUDY:

- Business Foundation Degree
- Business Management

CONSTRUCTION

“Our class is small and welcoming, the lecturers are friendly and supportive, and it’s great to have student discounts. The campus is easy to get to with on-site parking, and the course is ideal for meeting others in the trade and learning how different companies work.”

Jenny
Construction Management

CONSTRUCTION

Benefit from specialist facilities, industry-standard resources and enriched learning experiences that develop practical, professional skills across a wide range of construction and civil engineering disciplines, with opportunities such as applying for Institute of Civil Engineers status.

YOU CAN STUDY:

- Architectural Technology for England
- Building Services Engineering for England
- Civil Engineering for England
- Construction Management for England
- Quantity Surveying for England

Scan to find out more.

CYBER AND DIGITAL TECHNOLOGIES

“The facilities here have been brilliant; we’ve got access to numerous IT rooms and equipment. If you have decided this is what you want to do, my advice would be to try and get funded through an employer.”

Ross
Applied Computing

CYBER AND DIGITAL TECHNOLOGIES

The Faculty of Cyber and Digital Technologies offers exceptional facilities, industry partnerships and hands-on experiences, giving students access to high-performance hardware, professional software, dedicated Esports suites and competitive opportunities that build technical expertise, teamwork and career-ready confidence.

YOU CAN STUDY:

EDUCATION

“The people you meet has been one of the best things about the course and putting names to all the things you already do and understanding why you do them is a massive part of it. I’ve loved it so much that I am thinking about studying further which isn’t something I thought I would be thinking about at this point in my life.”

Matt

Certificate in Education

EDUCATION

These courses are shaped by a strong focus on professional practice, reflective learning and sector-relevant development, with teaching that blends academic insight and practical experience to support learners working with, or aspiring to work with, young people.

YOU CAN STUDY:

- Certificate in Education (Cert Ed)
- Postgraduate Certificate in Further Education (PGCE in FE)

Scan to find out more.

HIGHER EDUCATION AT NORTH DEVON COLLEGE

When I started the course, I wanted to become a teacher, but my ambitions changed as I discovered new possibilities. I really enjoyed researching my dissertation at Exmoor Zoo. My long-term goal is now to work in education within a zoo setting.

Caitlin
Foundation Degree in Teaching
and Learning
