

John Laramy CBE DL

Principal and CEO

As Principal of this dynamic and thriving college, I'd like to introduce you to the exceptional opportunities we offer all our students. Our very broad range of courses and programmes means that you can choose the area of study or an apprenticeship that best suits your needs, abilities and interests.

How we support our students to achieve their potential

All students aged 16-18 will have a **personal tutor** or **skills officer** for apprentices who will support them during their time at College.

- Students have a **Tutorial Programme** that gives them opportunities to develop their knowledge, skills and understanding of a range of important issues.
- We offer **financial support** in the form of a **bursary scheme** for students that need it. We also offer a travel scheme that provides subsidised travel for those living further than three miles away from the College.
- The **Welfare Team** support the needs of children in care or care leavers.
- Students have the opportunity to develop employability skills and focus on career progression by accessing our **Careers Team**.
- Our **Learning Support Team** are dedicated to providing additional support to learners.

Kick-start your future, think Apprenticeship

Apprenticeships are an exciting alternative to full time study and offer an opportunity to gain work experience, develop industry specific skills and get qualified – all whilst getting paid.

Our Apprenticeship team are hosting the Apprenticeship Expo in our Sports Hall at Exeter College. We will have a huge number of employers for young people to engage with. This will run during the day from 1pm until 5pm.

Next Steps

STEP 1

Apply now

Scan the QR code below or visit our website.

STEP 2

Interview

Check the course is right for you and find out more before receiving your conditional offer.

STEP 3

Focus on your exams!

Stay focused on your revision and do your best in your exams, as the results can help shape your next steps after Year 11.

STEP 4

Enrol and start with us!

You must enrol in person between 20 -27 August, with college starting on 2 September.
